

Additional Transport Information

KTK Transport Inc

- Our set up is a total **48 feet long**, we require lots of space for turning around and loading. Please advise us of your situation prior to coming. Pictures may be asked for.
- We are willing to go out of our way to pick up your animals and offer door to door service, however, sometimes depending on the weather we ask to meet in a neutral location as the unknown roads can be icy.
- Note that if your horse requires a box stall we may add a surcharge as this leaves us with limited room.
- All horses must be handled and halter broken, **if your horse doesn't load or has never been on a trailer please inform us ahead of time**. If we are uniformed and the horse hasn't loaded **within 30 minutes** we will have to reschedule them for the future.
- We have limited space so, we allow horses to be sent with a blanket, feed dish, halter, small amounts of tack, as long as it is contained in a container and labeled which horse it belongs to.
- Horses must be ready upon arrival, each destination is allowed a 30 minute loading period. We require a person there for pick up and drop off.
- Horses are provided with a hay net the entire time with local hay unless otherwise told, offered water at all stops and are taken off the trailer every 12 hours (this reflects the lengths of our hauls).
- Sometimes we need to stop overnight to provide a safe location for the animals on board, the going rate for overnight is \$30-\$40 it varies.
- **ALL QUOTES** are subject to change without notice depending on different situations.
